

Instructions for Making Fleece Blankets

You will need: Fleece material, scissors, flat surface to work on.

1. Purchase fleece material of various colors and patterns from fabric store. (only use new material.)
2. Cut fleece into squares no larger than 50 inches on a side.

3. Choose two squares and place them together on a flat surface with right sides facing out.
4. Cut slits, 2 inches deep, at 1 inch intervals through both layers of fleece around all edges. Cut out a square piece at each corner.

5. Tie together, in a knot, one tab from the top material with the corresponding tab from the bottom material all the way around.
