

The Tufts Medical Center and Floating Hospital for Children recognize the National Patient Safety Goals and asks all of our patients to carry a complete and up to date list of their medications with them.

Please fill this in and bring it with you to all of your appointments.

This will help your healthcare team to provide a safe course of medical treatment for you.

Flu	/	/	/	/

Always carry a list of current medications with you in case of an emergency. Provide an updated list to your Primary Care Physician or any provider who prescribes you medication. Remember to keep your list updated. Include all over the counter medications such as vitamins and herbals. Discard all old medication lists.
